GAINESVILLE, FLORIDA, WEDNESDAY, JANUARY 17, 1906

TEN CENTS A WEEK

GLOOMY OUTLOOK FOR NEW YEAR

Russia Has Grave Fears For Success of 1906.

NOTE OF PRESS PESSIMISM

Bankruptcy of Government Before the Year Is Done Is Predicted, and Many Evil Omens Have Been Seen by Superstitious.

St. Petersburg, Jan. 16.—The note struck by the radical press in reviewing the past year and commenting on the outlook for the new year, is an extremely pessimistic one. These newspapers generally see no prospect of internal peace, but they unite in expressing the hope that 1906 will not end as did 1905, with the spirit of reaction strong in the ascendant.

The Novoye Vremya and the Slovo on the contrary, look to the duma to put a seal on the charter of the people's liberties and to restore tranquility to the distracted country.

M. Anshutroff, one of the most brilliant of Russian journalists, who served a term of exile for his famous political feuilleton, in which he arraigned the members of the imperial family as public bandits and who recently has been living in Rome, in an article on Russia's future, predicts that the coming year will witness the financial and political bankruptcy of the government.

Honors for Reactionaries.

The list of the new year's honors is notable for the number of decorations bestowed on the officials associated with the policy of repression. M. Durnovo, who so far as the practical organization is concerned, is the best hated man in public life, has been promoted from acting minister of the interior to minister, thus increasing the influence of the bureaucratic hierarchy.

It is significant that in the annual renewal of appointments, Count Solsky, president of the council of the empire, and the heads of departments in the council, have been appointed "until the reorganization of that body."

The emperor and empress held a new year's reception in the palace at Tsarskoe-Selo to which the members of the diplomatic corps traveled in a special train from St. Petersburg. The reception was a formal affair, to which only the court functionaries, diplomats and a few nobles were invited. It passed without notable incident.

Witte Not at Reception.

The absence of Count Witte created some comment, but it was officially explained that the reception was a special one for the representatives of the foreign powers. The only minister invited was Count Tamsdorff, minister of foreign affairs.

The emperor looked well and spoke pleasantly to all his visitors, especially shaking out Mr. Meyer, the American ambassador, and Herr Von Schwen, the German ambassador.

Shadow Over Festivities.

The anniversary of the revolution in the famous restaurant "The Bear" at an early hour in the morning, 1906, the student Davydoff, was shot and killed by Count Shchemetoff, and the count was badly wounded by a bullet from the chest man, who was shot over the new year festivities.

The custom of making new year calls begins in Russia a few days earlier than in any other country of the world, and of course results in the fair at the fair grounds. The fair grounds are crowded with people, and the fair is a success. The fair is a success. The fair is a success.

Standing in the line of the fair, the fair is a success. The fair is a success. The fair is a success.

Balfour Leaves Seat.

London, Jan. 16.—A J. Balfour, the former prime minister, reading the conservation paper, has been followed for member of parliament, for the division of Manchester, by T. H. Balfour, liberal and free trader. The general majority was 1909.

CONDITION IS HOPELESS.

Not Believed that Marshall Field Will Recover from Malady.

New York, Jan. 16.—It was almost a foregone conclusion that Marshall Field, the Chicago merchant, would not recover from his malady.

The physicians in attendance, however, seem to have comforted themselves with the statement that Mr. Field's condition was less favorable than on Sunday.

At 9:15 a. m. Monday the following bulletin on the condition of Marshall Field was issued by his physicians at the Hotel Marlborough.

"Near the end of the seventh day of the illness, Mr. Field's condition remains critical. There is as yet no improvement. Walter B. James, E. B. Janeway, Frank Phillips, physicians."

When this bulletin was issued Mr. Field's pulse varied between 60 and 120.

At 11 a. m. Monday Stanley Field, nephew of Marshall Field, said his uncle's condition was hopeless and that his death appeared only a matter of hours.

Mr. Field was conscious at that time and all of his relatives who are here were at his bedside by his request.

Henry H. Rogers, Paul Morton and Mrs. Roosevelt Miller called to see Mr. Field Monday.

The area affected by the pneumonia was not increased, but the danger of exhaustion very great.

The following bulletin was issued by Mr. Field's physicians just after 1 o'clock Monday:

"There is no change for the better in Mr. Field's condition. He continues to grow weaker."

SLAYER IS STILL AT LARGE.

Report that Negro Had Been Lynched Was Not True.

Hawkinsville, Ga., Jan. 16.—Martin J. Smith, who was shot twice on last Thursday by one Tom Rutherford, did not die Sunday night at 8 o'clock here.

Rutherford is a negro about 24 years old and is known to be a bad character.

Telephone and telegraph wires have been freely used since that time in the endeavor to locate Rutherford, and searching parties are now scouring the country for the murderer.

The report, reaching here that he had been caught and lynched, is stoutly denied by some of the searching party who have returned to go in another direction.

A large reward for Rutherford's capture is now being made up by citizens, and the governor will be asked to offer a reward also.

Considerable indignation is aroused over the murder, as Mr. Smith was one of Hawkinsville's well-to-do farmers, and a man of high standing among his neighbors.

Report Issued on Dairying.

Washington, Jan. 16.—A report on dairies of Dairy Cows in the United States, issued by the department of agriculture, says that the reports of production and unproductive dairymen and farmers show that there is no business which has a greater margin of profit than that of dairy farmers. The records of the dairies are issued. It was shown that one of them made \$200 per week under investment in feed, and another made \$100 per week under investment in feed. All had the same feed and same water. The difference in their profits, however, was due to the difference in the quality of the feed and the quality of the water.

Dead Body Mangled.

A dead body was found mangled in the woods near the railroad tracks. The body was found by a hunter who was out for a walk. The body was found in the woods near the railroad tracks. The body was found in the woods near the railroad tracks.

Harper's Body Laid in Vault.

Chicago, Jan. 16.—The body of Dr. William Harper, who was killed by a train on the Chicago and North Western railroad, was laid in a vault in Oakwood cemetery. The body was found by a hunter who was out for a walk. The body was found in the woods near the railroad tracks. The body was found in the woods near the railroad tracks.

GRITCHFIELD CLAIMS WILL BE PRESSED

So States The Latest Information From Caracas.

CLAIM FOR MILLION AND A HALF

Grows Out of Shutting Down by Government of the Asphalt Property for Failure to Pay Export Tax Imposed by President Castro.

New York, Jan. 16.—The latest information from Caracas regarding the Critchfield claims against Venezuela which dispatches from Washington say will be pressed by the state government, say the matter will be satisfactorily settled between Venezuela and the United States, and the Venezuela company which operates the Critchfield corporation now, says the Tribune.

The claim grows out of the shutting down by the government of the asphalt property "El Infierno" near Maracibo, for failure to pay an export tax imposed on the product by President Castro. The claim is for \$1,500,000.

The terms of the Critchfield concession included a clause that the asphalt from "El Infierno" was to be free from such a tax as was imposed by President Castro. The property was shut down about the time that the high federal court cancelled the concession of the New York and Bermudez company. The government contended that aside from the nonpayment of taxes, the Critchfield concession was never approved by the congress according to the laws of Venezuela.

The trouble, however, is said to have been settled by Ambrose Howard Carter, receiver of the Guano Lake property, who interceded with Castro in the interests of the United States and the Venezuelan company.

The congress, which convenes in Caracas in April, will confirm the concession, and the claim will be withdrawn.

REBELS ROUTED WITH LOSS.

Sanguinary Battle Is Reported in Santo Domingo.

Cape Haytien, Jan. 16.—A sanguinary and what probably will prove to be the final battle, has taken place near Guayubin, between the troops of General Caeceres, the temporary president of Santo Domingo and the insurgents.

The former were victorious. Several generals of both sides were killed or wounded.

The gunboat Intendencia, which recently went over to the insurgents, intends, on the advice of former president Morales, to return to Santo Domingo and surrender. If the government will guarantee the safety of its officers and crew.

It is expected also that the governor of Monte Cristi will follow the advice of General Morales and surrender that place, provided the necessary guarantees of safety be given.

Well Known Conductor Killed.

Wichitan, Kan., Jan. 16.—Simon C. Mills, aged 35, who has been a conductor on the Atlantic Coast line railroad for over eight years, was struck on the left posterior bone late Saturday afternoon by the fever of a wire straggler and as a result died at a hospital Saturday. Conductor Mills had been working on the road for white on account of an injury received in a railroad wreck and while on his way home to his home in the country near here, he was struck on the farm. It seems that the wire straggler was a wire straggler of his plantation and was struck by the wire straggler and was killed.

Harper's Body Laid in Vault.

Chicago, Jan. 16.—The body of Dr. William Harper, who was killed by a train on the Chicago and North Western railroad, was laid in a vault in Oakwood cemetery. The body was found by a hunter who was out for a walk. The body was found in the woods near the railroad tracks. The body was found in the woods near the railroad tracks.

STEFFENS MAKES ADDRESS.

Author of "The Shame of the Cities" Speaks to "Anti Graft" Meeting.

New York, Jan. 16.—Lincoln Steffens, author of "The Shame of the Cities," addressed an anti-graft meeting under the auspices of the Y. M. C. A. yesterday. Mr. Steffens told of notable grafts made in various American cities against political corruption of Chicago, he said:

"They have not got good government in Chicago yet, not by a great deal, but they have got Democratic government—representative government, at least. They have a real sense that the streets belong to the city and not to the railroads. They found, too, that the source of corruption was privilege and so they determined to take away that privilege. And that is the plan which must be followed elsewhere."

Had it been found necessary in most cases to extend the fight to state capitals for the real center of crookedness was there "Tom Johnson," he said, "does not think he will live long enough to accomplish the reforms he has planned, but he has already something more important; he has educated the people of Cleveland in good citizenship."

Mr. Steffens said he shared H. H. Rogers as a victim of an existing system of political corruption as clearly as some ward heeler.

ARRESTED FOR MALPRACTICE.

Dr. Francis Morgan, of Berkeley, Is Placed Under Arrest.

Norfolk, Va., Jan. 16.—Dr. Francis M. Morgan, of Berkeley, has been arrested on the charge of criminal malpractice on Mrs. Josephine Hall, a woman about 37 years old, who has a son 14 years old. The offense is alleged to have been committed March 15, 1905, and Mrs. Hall, the alleged victim in the city, has fully recovered.

The case was before the Norfolk county grand jury before Berkeley ward became a part of Norfolk city, but the grand jury refused to indict Dr. Morgan, and all action in the matter was dropped until Berkeley was annexed to Norfolk last week.

Waiving a police court examination following his arrest, Dr. Morgan appeared with counsel before Judge Hackett and was bailed in the sum of \$500 for his appearance at the next grand jury term in February.

MINE WORKERS TO CONVENE.

It Is Expected that Practically All Delegates Will Be Present.

Indianapolis, Ind., Jan. 16.—The seventh annual convention of the United Mine Workers of America will assemble at Tomlinson hall Tuesday morning.

It is expected that practically all of the 1200 delegates will be present. Over half of this number have arrived. Following the reading of a welcoming address on behalf of Mayor Bookwalter, who is absent from the city, the delegates will be welcomed by the central labor union of this city and President Mitchell of the miners' organization will respond.

The report of the committee on credentials will follow and will occupy several hours. The annual address of President Mitchell will follow this report. A delegation from Canada is among the arrivals.

Tourists Fleeced by Gang.

Mexico City, Jan. 16.—The police have discovered a gang of American sharpshooters who operate chiefly on tourists, luring them into poker games where they are fleeced. The tourist always loses, and if he threatens to complain to the police he is told that he will be arrested for gambling, under the strict laws now prevailing. One of the gang has been arrested and others are being sought. The police are on their toes.

Nonregian Steamer Wrecked.

Escola, Denmark, Jan. 16.—The Nonregian steamer, commanded by Captain Deing, which sailed from New York about 8 p. m. Jan. 10, for this port, has been wrecked on Horns Rev, in the North sea, about 20 miles to the westward from this port. All of her crew except one man were rescued. It is believed that the vessel and her entire cargo will become a total loss.

RELATIONS ARE NOT OFFICIALLY BROKEN

M. Taigny, The French Charge, Still at Caracas.

RUPTURE, HOWEVER, IMMINENT

American Minister Will Take Charge of French Interests in Venezuela When Official Notice of Cessation of Diplomatic Relations Is Given.

Paris, Jan. 16.—The positive statement was made at the foreign office today that diplomatic relations between France and Venezuela have not yet been officially broken off.

M. Taigny, the French charge, still remains at Caracas. A rupture, however, is imminent, though the order to sever relations with Venezuela has not been dispatched.

All communications, owing to the interruption of direct telegraphic connection with Caracas, passes through Washington, with which capital an understanding exists.

The American minister, Mr. Russell, will take charge of French interests in Venezuela when the official notification of the cessation of diplomatic relations is given.

The reports that the French squadron is proceeding to Venezuelan waters are not confirmed, but on the other hand, they are not denied, the officials here maintaining the strictest discretion relative to the measures France is likely to adopt.

CARRIED ASHORE FROM STEAMER

Passengers and Crew Landed Safely. Captain Stayed on Board.

Atlantic City, N. J., Jan. 16.—After spending some time in terrible anxiety lest they be wrecked and swept into the sea, the passengers and crew, 60 in all, of the Clyde line steamer Cherokee, bound from San Domingo for New York, which went aground on the Brigantine shoals Friday, have been rescued and landed at the inlet here.

Captain Archibald, two mates and the ship's carpenter elected to remain aboard the stranded steamer.

The Cherokee, while in a perilous position, is in no immediate danger of breaking up unless another storm should set in.

White Arrives at Gibraltar.

Gibraltar, Jan. 16.—The American ambassador to Italy, Henry White, chief of the American mission to the Moroccan conference, arrived here today from Naples on the North German Lloyd steamer Princess Irene. The steamer's band played the American and British anthems as the Princess Irene entered the harbor. A steam launch of the United States cruiser Galveston ran alongside the liner and took the ambassador on board the Brooklyn, the flagship of Rear Admiral Sigbee, where the admiral assembled his officers while all honors were accorded, the warships firing an ambassador's salute. Mr. White hopes to reach Algiers before the arrival of the other delegates.

Snowstorms in Northwest.

Kansas City, Jan. 16.—Snow, with a temperature above freezing, fell today in the Missouri valley, taking in a portion of South Dakota, central and eastern Iowa, eastern Nebraska, northwestern Missouri and central and eastern reports received at the local weather bureau resulted in slight interference with railroad traffic in Nebraska and in slight interruptions in telephone and telegraphic communications in Missouri and eastern Nebraska.

Makes Charges Against Railroads.

Chicago, Jan. 16.—Advises to the Record-Herald from Dallas, Tex., says: John C. Hower, secretary of the Dallas Commercial club, had announced that the proposed visit of Texas commercial clubs to northern and eastern cities has been abandoned because of the high rates demanded by the eastern railroads to carry the party and he demands the railways had adopted this measure as a means of defeating the railway rate legislation.

FINE RESIDENCE BURNED TO GROUND

The Willard Home, With Contents, at Windsor Destroyed.

LOSS IS PLACED AT \$3,000

The Occupants Save Most of Their Wearing Apparel—Contents Almost Entirely Destroyed—There Was No Insurance.

The quiet hamlet of Windsor was visited by a very serious fire on Saturday last, which resulted in the destruction of one of her beautiful residences, together with its contents.

From particulars given The Sun by George Montgomery of that place, it seems that the origin of the fire is a mystery, as it was first discovered about 8 p. m. of Saturday in the sitting room, while the occupants were in the rear of the house. When first seen it had made such headway that it was impossible to check the flames with the means at hand, and notwithstanding the fact that the neighbors did all in their power to battle the flames, the entire house was burned to the ground.

The owner of the house, Mrs. Willard of Indiana, who has for several years made it her winter home here, had arrived only a few days ago, accompanied by her niece and nephew, and only their trunks and part of their wearing apparel were saved.

The heat from the fire was intense and burning shingles were carried across the street to the Kelley homestead, which was saved from destruction by the efforts of the citizens who came to the rescue.

Mrs. Willard's house was valued at upwards of \$3,000, and there was no insurance. She may rebuild, as she has many friends here who are pleased to have herself and friends as winter residents.

MADE A FINE CROP.

Colored Farmer of Jonesville Outstripped All Records.

It is a strange proposition, but it is a fact that J. H. Latson, a colored farmer residing near Jonesville, has succeeded this year in producing better results from the same number of acres cultivated than any farmer in the county.

This information comes from the report of County Tax Assessor W. W. Colson, which will be submitted to the Commissioner of Agriculture of the State.

Deputy Assessor J. C. McGrew stated Tuesday that so far he has recorded the productions of over five hundred farmers of the county, and the report of Latson showed the best results.

From twenty acres of cultivated land this enterprising negro farmer harvested nine bales of cotton and two hundred bushels of corn; from one-fourth acre forty bushels of sweet potatoes, and from one-fourth acre he secured sufficient sugar cane to make four barrels of syrup.

Latson stands well with everybody in his community, and it is no wonder, since his industry commands the admiration of those who know the success he has attained.

TABERNACLE WAS CLEANED.

Preparations Made for Opening of Bible Conference on February 11.

A force was busy Monday cleaning up and arranging the big Tabernacle, preparatory to the opening of the Winter Bible Conference, which will occur on the 11th of February.

A letter from Rev. Clarence B. Strouse, who is now in Atlantic City, N. J., bears information that he expects to start for Gainesville in a few days, and will arrive here in ample time for the opening of the Conference.

Funeral Postponed.

The funeral of the infant of Mr. and Mrs. Henry W. Toole, South Gainesville, has been postponed until 9 o'clock this morning. The services will be held at the home and friends are invited.

Use Corn for Fuel.

Fort Worth, Tex., Jan. 16.—Reports from Eloyada, Lubbock and other towns in the Texas panhandle country say roads are impassable, coal is selling at \$25 a ton and wood at \$10 a cord. Farmers are compelled to burn corn, as they can get no other fuel.

A Guaranteed Cure For Piles.

Itching, blind, bleeding, protruding piles. Druggists are authorized to refund money if PAZO OINTMENT fails to cure in 6 to 14 days. 50c.

RIGHT NOURISHMENT.

We think of nourishment as food—meats, soups, vegetables, etc., but that's only half. It's not the food alone that counts but the good that we get from food that furnishes nourishment. A pound of steak is of less value to a weak stomach than a crust of bread is to a strong digestion. But weak stomachs can be made strong. Begin by eating less; have regular hours for meals; avoid fancy things and about a half hour after eating take a tablespoonful of Scott's Emulsion. It's a fact of medical history that people have lived on not much else but Scott's Emulsion for a long time—not only lived but gained flesh and recovered their strength and health. From the pure Norwegian cod liver oil to the last drop of glycerine, Scott's Emulsion contains just the strengthening and health-building elements needed for low vitality, weak digestion and poorly nourished bodies.

SCOTT & BOWNE, 409 Pearl St., New York

DONNELLY & HATFIELD.

The Magnificent Minstrels That Are Here This Evening.

"The Darktown Circus" is the title of one of the interesting features of the Donnelly & Hatfield Magnificent Minstrels, under the personal direction of Al G. Field. It is a burlesque on the popular tent show and is replete with humor, every detail of the canvas exhibition being developed. Many hundreds of dollars were spent to produce this burlesque minstrel act—the scenic investitures and stage effects being the most complete ever devised. The big company consisting of forty people participate in the burlesque, which closes the performance.

So clever is the animal portrayal of this act that it takes but a little imagination on the part of the audience to believe that they are sitting on the narrow boards opposite the sawdust ring. Animals in every hue and color run rampant in the calcium light, noises peculiar to the cages, the springboard and ring are heard upon every hand. The small urchin gingerly reaches his last peanut to the hungry elephant while the monkeys climb the lars, and wide-eyed watch the broad panorama of events. At an opportune time the lion breaks from his cage and plays havoc among the other animals and the people who have congregated around the cages. Everybody scatters for a place of safety. The monkeys scream and the lions roar. The motley clown steals the Rube's best girl and the Rube gets mixed up with the hyena's claws. During the enactment of this scene, a typical circus band plays its melodies. Get your reserved seats at Ayer's before they are all gone.

Rev. Carlisle P. B. Martin, L. L. D.

Of Waverly, Texas, writes: "On a morning, when first arising, I often find a troublesome collection of phlegm which produces a cough and is very hard to dislodge, but a small quantity of Ballard's Horehound Syrup will at once dislodge it, and the trouble is over. I know of no medicine that is equal to it, and it is so pleasant to take. I can most cordially recommend it to all persons needing a medicine for throat or lung trouble." Sold by W. M. Johnson.

Green Out Under Bond.

Rome, Ga., Jan. 16.—George Green, who was indicted by the grand jury for perjury in the first Sanford trial, surrendered to the sheriff and was allowed to go free under a \$200 bond. Green says that he will make it warm for some other members of the jury on which he served, and especially designates one whom he says he will have the grand jury indict for "trap shooting."

JOTTINGS FROM JUDSON.

Cotton Crop All Gone and Farmers Replanting—A Happy Marriage.

Jud-on, January 16.—Rev. S. W. Sheffield of Williston preached here Sunday evening.

Miss Stella Miller, daughter of R. P. Miller of Jonesville, is here clerking for her uncle, R. S. Tucker.

Our little village is quite dull now. The farmers have commenced work for another crop and they are staying close about their farms. The last season's crop of cotton has all been disposed of and the farmers are going to plant another crop with the hope of getting a more satisfactory price next season.

Lem Williams and Ezell Adams of Trenton were here Sunday evening.

Emory Kidd has been very sick for a week, but is now improving. His friends hope soon to see him on the streets again.

Graham Carter of Levyville was married last Sunday week to Miss Mary Willis of Williston at the residence of J. N. Wood. The ceremony was performed by Mr. Wood, a notary public.

Sickening, Shivering Fits

Of ague and malaria can be relieved and cured with Electric Bitters. This is a pure, tonic medicine of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to quinine, having none of this drug's bad after effects. E. S. Munday of Henrietta, Tex., writes: "My brother was very low with malarial fever and jaundice till he took Electric Bitters, which saved his life." At all drug stores. Price 50c, guaranteed.

Remarks Significant of Decision.

St. Louis, Jan. 16.—Attorney General Hadley arrived from New York last night and after a brief stay departed for Jefferson City. He said, regarding the refusal of Henry H. Rogers to answer questions in the oil inquiry: "The remarks of Judge Gildersleeve at the close of arguments Saturday, were significant. They came as near forecasting a decision in our favor as could be expected from the bench. The court stated that the questions asked Rogers appeared material and wholly proper. The New York people showed me every consideration and I am grateful to them. I will return to New York to resume the matter."

Imperfect Digestion

Means less nutrition and in consequence less vitality. When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. Herbine will rectify this. It gives tone to the stomach, liver and kidneys, strengthens the appetite, clears and improves the complexion, infuses new life and vigor to the whole system. 50 cents a bottle. Sold by W. M. Johnson.

Transport Arrives With Men.

San Francisco, Jan. 16.—The army transport Sherman arrived from Manila yesterday and brought the enlisted men of the Twenty-second Infantry numbering 500 men and their officers. They will be stationed about this bay, a passenger accompanying them was General W. L. Carter, who has been for the past three years in command of the department of the Visayas, including the islands of Mindanao and Samar. He is enroute to Chicago to take command of the department of the Lakes.

Greatly in Demand.

Nothing is in more demand than a medicine which meets modern requirements for a blood and system cleanser, such as Dr. King's New Life Pills. They are just what you need to cure stomach and liver troubles. Try them. At all drug stores. 25c guaranteed.

Aged Man Is Stabbed.

Gaffney, S. C., Jan. 16.—News has reached here of the stabbing at Cherokee Falls about 6 miles from Gaffney, of William Harris by John Owings. Harris is an aged employee of the Cherokee Falls Manufacturing company, being about 70 years of age, while Owings, who did the cutting, is about 25 years old. Mr. Harris was cut about the face and head. His injuries will not prove fatal. The difficulty occurred about a dispute in the mill, where both men were employed. Owings made his escape.

ABSTRACT & REALTY COMPANY

(Incorporated)

E. E. VOYLE, MGR.

Abstracts of Title and full information furnished regarding lands in this county. Our manager has lived in this county thirty years and is thoroughly conversant with land titles.

It Quiets
the Cough

This is one reason why Ayer's Cherry Pectoral is so valuable in consumption. It stops the wear and tear of useless coughing. But it does more—it controls the inflammation, quiets the fever, soothes, heals. Ask your doctor about it. We have no secrets! We publish the formulas of all our medicines. J. C. Ayer & Co., Lowell, Mass.

NEWS OF CITY AND
COUNTY CONDENSED

The many friends of George L. Taylor, superintendent of the business in Peach Orchard at Palmer, who has been seriously ill for the past two weeks with pneumonia, will be pleased to learn that he is rapidly recovering and hopes to be able to visit Gainesville the latter part of the week.

B. Edelstein left Monday for New York, where he expects to remain for the next few months. Mr. Edelstein is a member of the firm of Sternberg, Presner & Co., manufacturers of ladies' skirts, which firm has an extensive trade throughout the South. Mr. Sternberg at one time had a mercantile business here on West Union street, and is well known throughout this section.

The Ladies' Hospital Aid Association, desirous of helping this deserving cause, has decided to give an entertainment at the home of Mrs. J. E. Padgett, N. Franklin street, East Gainesville, Monday evening. There will be delicious refreshments and a fine program. The refreshments will be served at reasonable prices, and the proceeds will be devoted to the hospital fund.

At 9 o'clock this morning L. J. Burkhim will start his "forty-eight-hour sale," and if you want to clothe up you should "get the habit" and march to the music. It will probably be the most cutting sale of the season, as Mr. Burkhim will make an effort to lower the piles of art clothing, to make room for a new stock which he expects to go to the Eastern markets in a few days to buy. Not below cost, but so near it that you wonder how he can do it. No better line of goods in the city. Remember, but forty-eight hours will the sale last.

Judge Mason's Court.

Monday was a busy day in Judge Mason's court, two cases having been disposed of which required the entire day.

The first case was that of the S. F. Bowser Company vs. W. W. Stroble, assumpsit, damage \$20. Verdict for defendant. Carter & Layton represented the plaintiffs, J. M. Rivers the defendant.

The Patent Washing Drug Company, through their attorneys, Carter & Layton, filed suit for assumpsit against Dr. J. L. McLeod, the damage being assessed at \$45. Case went to trial by jury and a verdict was returned in favor of the plaintiff.

J. A. Carlisle and J. M. Rivers represented Dr. McLeod in this case.

Pleasant and Most Effective.

T. J. Chambers, Editor Vindicator, Liberty, Texas, writes Dec. 25, 1902: "With pleasure and unsolicited by you, I bear testimony to the curative power of Ballard's Horehound Syrup. I have used it in my family and can cheerfully affirm it is the most effective and best remedy for coughs, colds I have ever used." Sold by W. M. Johnson.

The Tale is Told

LITTLE HELEN WALTON

Restored to Health by Vinol—Her
Mother's Story

Mrs. R. M. Johnson of Jacksonville, Fla., writes: "My daughter was troubled with a bad cough which nothing seemed to relieve. We tried different doctors and medicines without benefit. The colic liver oil preparation, Vinol, was recommended, and before she had taken one bottle her cough had stopped and her condition greatly improved. She now has a splendid appetite and is gaining in flesh. I advise every mother who has an ailing child to try Vinol. Nothing is so all-round, and it tastes so good there is no trouble in getting children to take it."

Our well-known druggist, Mr. W. M.

HELEN WALTON.

Johnson, says Vinol is a grand medicine for children—it produces bone, muscle and rich pure blood. It is not a patent medicine, as everything in it is named on the back label of every bottle; so parents know exactly what they are giving their children. It contains in a highly concentrated form all the curative, medicinal principles of cod liver oil, but without the nasty oil, and children love its taste. It soon makes puny ones strong and rosy.

We just wish every mother in Gainesville who has a sick, puny or ailing child would try Vinol on our guarantee. W. M. Johnson, Druggist.

THE PARK SHOW.

This Popular Company Continues to
Please Gainesville People.

"At Piney Ridge" was the offering last night by C. W. Park's Dramatic Company. It dealt with the race issue, a theme which at present seems to claim the attention of many moralists and playwrights. It was well played throughout. In fact it would have been hard to improve the acting in many of the scenes.

Tonight "The Gambler's Wife" will be done. This is the piece which under another name has enjoyed great popularity in the larger cities. The serious and funny sides of life are happily blended throughout the four acts.

On Friday at 4 p. m. there will be a moving picture exhibition, during the course of which little Dolly Vaught will execute her wonderful serpentine dance, with full electrical and color effects. Admission, 10 cents.

Regular matinee on Saturday at 3 p. m.—"Fanchon the Cricket." Admission, 10 and 25 cents.

A Thousand Dollars' Worth of Good.

A. H. Thurnes, a well-known coal operator of Buffalo, O., writes: "I have been afflicted with kidney and bladder trouble for years, passing gravel and stones with excruciating pain. I got no relief from medicine until I began taking Foley's Kidney Cure; then the result was surprising. A few doses started the brick dust like fine stones and now I have no pain across my kidneys and I feel like a new man. It has done me \$1,000 worth of good." J. W. McCollum & Co.

Jolly Hunting Crowd.

A jolly hunting crowd, composed of twenty gentlemen and ladies, left Newberry last Monday for the huckleberries and wilds of the Suwannee river valley, in Lafayette county, on a deer hunt. The party has not been heard from, but inasmuch as they invaded a section not much traversed by the huntsman, it is safe to say that they will meet with great success.

Chronic Constipation Cured.

One who suffers from chronic constipation is in danger of many serious ailments. Orino Laxative Fruit Syrup cures chronic constipation, as it aids digestion and stimulates the liver and bowels, restoring the natural action of these organs. Commence taking it today and you will feel better at once. Orino Laxative Fruit Syrup does not nauseate or gripe and is very pleasant to take. Beware substitutes. J. W. McCollum & Co.

ARCHER IS PROSPERING.

Town Will Incorporate—Many Improvements—Merchants Busy.

The bustling town of Archer, which is about eight or ten miles to the southwest of Gainesville, is becoming more lively every day and the enterprising citizens of that place are determined to make it one of the leading towns of the county.

A meeting of the citizens of Archer was held Monday night for the purpose of perfecting plans for incorporation. The meeting was presided over by C. D. Wood, and S. T. Fleming acted as secretary. It was a representative gathering, a large number of the leading citizens and business men participating.

After discussing the matter for some time it was moved, seconded and carried that the town proceed to incorporate under a former charter issued about twelve years ago, and immediate steps will be taken in this direction.

There are many improvements contemplated for Archer, and a few have recently been completed. One of the most important is the laying of a substantial walk from the passenger station to the store of C. W. Banknight, which is one of the greatest conveniences to pedestrians.

The Archer foundry and machine works, which started a few months ago, is working a big force on full time, the gineries and other plants have been busy and the merchants are enjoying a trade remarkable for a town the size of Archer.

Officers' Meeting, G. & G.

A meeting of the officers of the Gainesville and Gulf Railroad was held in this city, in the offices of the company, Tuesday morning.

After discussing matters generally pertaining to the road, the meeting adjourned to meet in Ocala today.

The only visiting officials at the meeting were A. P. Stoeckey of Ocala, first vice-president, and F. M. Simonton of Tampa, secretary.

There were no developments at the meeting which the officials were willing at this time to give out for publication, hence it is impossible to determine what action was taken on the construction of the road from Fairfield south to Tampa, as has been surveyed. At this the people of Gainesville and the section proposed to be traversed will be disappointed, as they have been deeply interested in the project. Something definite may be brought out at the Ocala meeting, however.

A Grim Tragedy.

Is daily enacted in thousands of homes, as death claims, in each one, another victim of consumption or pneumonia. But when coughs and colds are properly treated, the tragedy is averted. F. G. Huntley of Oakland, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50c and \$1.00 by all druggists. Trial bottles free.

Improved Train Service via Atlantic Coast Line.

The Atlantic Coast Line and its connections are now operating solid through trains from Jacksonville to Atlanta, via Waycross, Tifton and Macon, with through coaches to Nashville and Pullman buffet sleeping cars to St. Louis and Chicago.

Trains leave Jacksonville via Atlantic Coast Line daily at 9:00 p. m. and arrive Tifton 1:25 a. m., Macon 4:40 a. m., Atlanta 7:50 a. m., Chattanooga 1:15 p. m., Nashville 6:55 p. m., Evansville 1:25 a. m., St. Louis 7:08 a. m., and Chicago 9:30 a. m.

Good connections are made at Jacksonville from all Florida points, thus affording the quickest and most convenient service from this territory to the West.

THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$5 a year; \$2.50 six months; \$1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.
Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, state and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

They have a poet on The Tampa Tribune to write scare heads. You can't keep a poet down.

President Roosevelt is a Red Man, but we are grateful to know he is of the improved kind.

King Edward is trying to get the powers of the world united, with Emperor William barred.

The man who trusts to luck and don't make any effort to assist with brawn or brain will soon find the flour barrel empty.

The Sun is under obligations to The World for a copy of its 1906 Almanac and Encyclopedia. We couldn't keep house without it.

Hon. J. Walter Kehoe, State's Attorney for the First Judicial Circuit, is coming to the front as a successor to Congressman Lamar.

Some of the opposition to the Buckman school law are more affected with the wrongs inflicted on the people than ever was the most anxious politician.

It is too bad that President Roosevelt is not a Baptist, so he could become president of Chicago University. But there is a big lake near Chicago.

The people of Arizona don't want to be mixed up with New Mexico as a State, and some of the Eastern States object to their coming into the Union as one.

Most of the colleges that haven't been able to put up a good game of football are anxious to have the game called off. There is not a kick heard from colleges where they have a winning team.

Florida is credited with only one lynching in 1905, but The Apalachicola Times thinks there is a chance for a better showing in the future, as we get more people from the more progressive States.

The Ocala Banner looked very fine last Sunday with its special telegraph news, and there is a marked improvement in its appearance. The Banner promised improvement and it is certainly keeping its word.

Spotted fever has again appeared among the students of the Newport, R. I., training school. The students of the naval school at Annapolis, Md., seem to be afflicted with a "spotted fever" just at the present time.

If Mr. Nathaniel Adams had only come out and said that "because he could not get the University located at Lake City, he would tender his resignation as a member of the State Board of Control," everyone in the State of Florida would have believed he stated the truth.

Capt. W. J. Tucker of Fort Pierce, who is mentioned as a probable candidate for Governor, is a native of Alabama county, having been born in the town of Newnanville in 1840. He has received many favorable expressions from the press of the State and will cut quite a figure in the primaries.

IMMIGRANTS OR NEGROES.

The Savannah News says that the delegates to the meeting of the Southern Cotton Association in New Orleans differed widely in their discussion of the labor question at Wednesday's session last week. Hon. H. S. Scott of Mississippi declared that as a laborer the negro had proven to be a failure, that his usefulness in the cotton field had about come to an end, and that before many years he would cease to be a factor in the labor problem of the south. Mr. Scott said that during last summer he visited several European countries for the purpose of finding out from which of them could be obtained a suitable and sufficient supply of labor for the South. He had come to the conclusion it could be obtained from central and southern Italy. The Italians from these sections, he said, are an industrious and peace-loving people.

Mr. Clarkson of Tennessee spoke of the wonderful development of the South since the Civil War, largely the result of negro labor, and said that if the negro were treated as well as it was proposed to treat the Italian he would be the better and more desirable laborer for the South.

Mr. Thompkins of North Carolina said there was no such scarcity of labor as there appeared to be from statements appearing in the public prints. "It is my observation," he said, "that the present situation in the South is more one where work is plenty and wages fair than one in which labor is scarce." In other words, there is an ample supply of labor where fair wages are paid.

Here we have three opinions from men who are doubtless well qualified to speak of the labor situation. They differ widely in their views. The negro, of course, would be better than the Italian if the latter couldn't be assimilated, because he is more tractable, but there is no doubt that the Italian can be assimilated. He and his descendants will become thrifty farmers and wealth producing citizens. If Italians of the right sort should come to this country in sufficient numbers they would not only supply the labor demanded, but they would in a comparatively short time turn the vacant lands into productive farms. They would increase the wealth of the South much faster than the negro will, even though the negro should be given as good treatment as it is proposed to give the Italian.

It may be that the negro is going through a formative period and will eventually be a better laborer and citizen, but just now he appears to become more thriftless and shiftless—and, as Mr. Scott said, is a failure so far as filling the South's labor need.

There is truth, of course, in what Mr. Thompkins says, namely: that the scarcity of labor is not as severely felt in localities where wages are high as it is where wages are low. In the production of cotton better wages can be paid now than when the price of cotton is below 8 cents. It cannot be predicted, with any degree of certainty, how long the price will remain above 8 cents.

We acknowledge our indebtedness to Bro. Caldwell of The Jasper News for timely information on the astonishing number of "mysterious Federal questions" lurking coiled and ready to spring in the Buckman law. We never believed that the blamed thing was so dangerous, and we'll monkey with it no more. The Gainesville Sun has our proxy hereafter.—Live Oak Daily Democrat.

If all the cotton growers vote to hold cotton until it goes up to 15 cents, there will be a lively time in the markets. If the bankers stand by the growers they will certainly make it very unpleasant for those who try to "bear" the market.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHERNEY & Co., Toledo, O.
Sold by druggists, 75¢.
Take Hall's Family Pills for constipation.

WHY MANY COME TO FLORIDA.

There are many people who come to Florida because they are compelled to, in order to live and enjoy life. They are sick and the doctors get tired of pouring medicine into them without any apparent good resulting, so they tell them to go to Florida or some other place where they can have the benefits of the warm climate.

The people that are driven here by the doctors frequently wait until it is too late for them to have any hope for recovery, and while they may receive some relief are too feeble to fully recover, or are so loaded with drugs that they cannot get relief in one winter. But a summer in Florida is very beneficial to such persons, and people who have not been able to attend to business one-half of the time in the North come here and keep busy the whole year and often fail to take the rest every person should at least once or twice a year.

HAVE YOU GOT ONE?

The 1906 World Almanac and Encyclopedia is a tabloid library of reference. It fits the pocket both in size and price and there is more solid fact and figure in its 650 pages than in a whole shelf full of costly encyclopedias. That is why the voluminous publications are "shelved." The Almanac buyer carries his reference library in his pocket. It is a "people's book"—for the man who cannot afford a library display and for the man who can afford it, but wants practical knowledge quickly. It is not written beyond the understanding of any man. To see it is to buy it! It is its own advertisement! It is the most active agent for the dissemination of quick and practical knowledge ever presented to the public.

The Louisiana Supreme Court has decided that if a newspaper in that State praises the work of a doctor, the doctor may recover damages from the paper on the ground that it has advertised him and thus put him into the category of quacks. It would, of course, be contempt of court to call the decision stupid, as that might be telling the truth regarding the judge.

WORMS

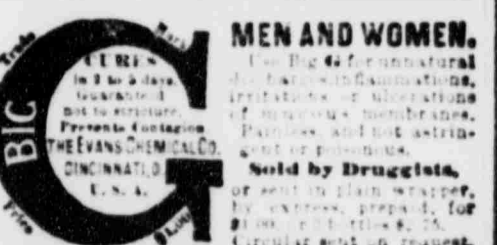

"I had for years suffered from what medical men called Dyspepsia and Catarrh of the Stomach. In August I purchased a box of Cascarets and was surprised to find that I had 'em'—yes—a wiggling, squirming mass left me. Judge our doctor's surprise when I showed him this fact, and in another day the remainder about the same length of a tape-worm that had been sapping my vitality for years. I have enjoyed the best of health ever since. Trust this testimonial will appeal to other sufferers."—Chas. Blackstock, 1415 Divinity Place, West Philadelphia, Pa.

Pleasant, Palatable, Patent Taste Good, Do Good. Never Sickens, Weakens or torments the Stomach. Never Sold in Bulk. The genuine is stamped C.C.C. Guaranteed to cure. Price 10¢ per box. Sold by Sterling Remedy Co., Chicago or N.Y. 594

L. J. BURKHIM.

ly in the sponge industry in procuring this product is no longer in doubt, and a large percentage of the Tarpon Springs vessels are changing from the old method of hooking to the new one of diving, and in order to successfully accomplish desired results with the diving method it was thought necessary to employ Greeks, who are accustomed to the work, as it seemed doubtful whether many of those who have followed the hooking process would care to don the helmet and leaden shoes and pull sponges with from thirty to sixty feet of water overhead. But recent experiments by a few have demonstrated that a little practice and confidence, together with a good physical condition, are all that is needed to become a diver. Already a number of our native spongers have become proficient in this line and the probabilities are that in the near future a large percentage of the catch will be obtained in this manner.

Two Hurt in Mine Accident.

Atalla, Ala., Jan. 16.—Two Christians and two miners were killed and two others injured in a serious accident. Both of Mr. Christensen's legs were broken, one of them in two places where the knee. Mr. Devine was crushed against a rock. A pick was caught through one of his hands and he was received a bad cut in his throat. Also Christensen was inspecting a show that was being shown in some new mine of Mr. J. M. Elliott, Jr. when a part of the mine gave way and caught both Mr. Christensen and Devine.

Steamer Will Be Total Loss.

Atlantic City, Jan. 16.—Captain Smith, of the South Brigantine Life Saving Station, announced at 1 p. m. for the first time since Friday from the wreck. He says it is the belief of the wrecking straws that the steamer will be a total loss. The yacht Clu-bast, which went out to the stricken vessel to be rescued, shortly after noon with a rescue which had been left on board yesterday by the rescued passengers.

The Original.

Foley & Company, Chicago, originated honey and tar as a throat and lung remedy and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCullum & Co.

LYONS' HEAD FALLS FIRST.

Georgia Negro Loses His Place as Register of the Treasury.

Washington, Jan. 16.—President Roosevelt has announced the appointment of W. T. Vernon, principal of Quindaro Institute, at Quindaro, Kans., to be register of the treasury in succession to Jackson W. Lyons. Charges were preferred against Vernon, but they were not sustained by the investigation made by the director of the president.

Lyons was at the White House and named from the president himself that there was no chance of his reappointment to the office he holds. The fact that Lyons is Republican national committeeman from Georgia did not save him. Vernon, of Kansas, had the endorsement of Hoover T. Washington.

This turn down of Lyons, coming coincident with the announcement that Rucker is to lose out and that De Vaux at Savannah is to meet the same fate, means that no negroes are to hold important federal offices in the southern States where it is possible to find a reason for putting white men in their places.

Cured Lumbago.

A. B. Cannon, Chicago, writes March 4, 1933: "Having been troubled with lumbago at different times and tried one physician after another, then different ointments and liniments, gave it up altogether. So I tried once more and got a bottle of Ballard's Snow Liniment, which gave me almost instant relief. I can cheerfully recommend it, and will add my name to your list of sufferers." Sold by W. M. Johnson.

Seaboard Parlor Cars.

The Seaboard Air Line operates buffet parlor cars between Waldo and Tampa on train leaving Waldo that connects with the morning train from Gainesville.

JURY CUTS OUT SUNDAY SMOKES

Enforcement of Sunday Law at Rome, Georgia.

Rome, Ga., Jan. 16.—The Floyd county grand jury has gotten straight after the shopkeepers who sell goods on Sundays.

The drug stores, where heretofore you could get a cigar or glass of soda water, now turn deaf ears to your pleas. Signs have been put up in a establishments of this character notifying their patrons that nothing but medicines would be sold on Sundays. Many who had not seen the notice were disappointed when they called for their cigar to find that there "was nothing doing."

It is the intention of the grand jury to make a clean sweep of all such cases as this. They have said that Sunday must be observed in Floyd county, any they have set out to enforce the laws to the letter.

ACQUITTED OF MURDER CHARGE.

Final Chapter is Closed in Sensational Floyd County Case.

Rome, Ga., Jan. 16.—The acquittal of Vincent T. Sanford of the charge of murdering George Wright, is the final chapter in one of the most sensational cases ever tried in the courts of Floyd county.

Two homes wrecked, one woman left a widow, another cast off by her husband, whom she has herself bitterly denounced, each now seeking to secure a divorce from the other, one man killed, and another, though acquitted of murder, left with the stain of a fellow man's blood on his hands, are some of the results of the tragedy.

Lawful to Publish Names.

Washington, Jan. 16.—Attorney General Moody has rendered an opinion for Secretary Wilson holding that it will be lawful for the department of agriculture to publish the names of dealers who sell adulterated seed. This question arose because the secretary of agriculture had an impression that if he did publish such names he would be liable for damages in actions for libel.

Bark is Wrecked.

New York, Jan. 16.—A cable dispatch to the Herald from Buenos Ayres, Argentina, says: The bark Octavia has been wrecked off the coast of the province of Buenos Ayres, between Puerto Medanos and Puerto Mogetas. The American vice consul at Bahaya Blanca, Daniel Meyer, was aboard the vessel. No details are known. Probably all are lost.

Milling Plant Destroyed.

Nashville, Tenn., Jan. 16.—The Dunlop Milling company's plant at Clarksville, Tenn., was damaged by fire at an early hour this morning, to the extent of \$250,000, with insurance of \$175,000. A warehouse containing 77,000 bushels of wheat and 5,500 barrels of flour was destroyed. A warehouse containing 60,000 bushels of wheat was saved.

Cleveland's Brother Paralyzed.

Columbus, O., Jan. 16.—Rev. W. N. Cleveland, brother of former President Cleveland, who has been stricken with paralysis, is in an unconscious condition at the home of his son here today and the doctors say that his death is only a matter of a few hours. He is a retired minister of the Presbyterian church.

Stock Brokers Will Retire.

Cleveland, O., Jan. 16. P. R. Fahey & Co., stock and grain brokers, announced today that the firm will go into liquidation and retire from business owing to the speculations of a trusted employee and the continued ill health of the senior member, Mr. Fahey.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Executed for Murder.

Che Foo, Jan. 16.—Three Chinese who confessed to the murder of a military Attaché Von Gugenheim and deCuerville, on their return from Port Arthur prior to the capitulation of that place, were executed here today. Lieutenant Von Gugenheim and Lieutenant deCuerville, German and French military attaches at Port Arthur, left there in August, 1905, in a junk manned by Chinese. They were never again seen alive.

Mozley's Lemon Elixir.

THE BEST FAMILY MEDICINE

For Constipation, Biliousness, Indigestion, Sour Stomach, Colic, Dizziness, Headache and anything caused by a disordered Liver. Removes

"That Drowsy Feeling"

by putting your digestive organs to work, increasing your appetite and, in fact, makes you feel like a "NEW MAN."

50c. and \$1.00 per Bottle at all Drug Stores. One Dose Convinces.

Edwards to Succeed Rucker.

Washington, Jan. 16.—It has been definitely decided by the president that Harry Stillwell Edwards, of Macon, shall succeed H. A. Rucker as internal revenue collector at Atlanta. This decision was reached at the last cabinet meeting, but has not been officially announced because the matter of Mr. Edwards' assistant has not been determined upon.

Young Man Loses Hand.

Tallahassee, Ala., Jan. 16.—Robert Parker, a young man living a few miles above Tallahassee, had his right hand cut off at Currys Station, by the south-bound Southern train. He had flagged the train to stop, and just before it came to a standstill, he slipped and fell, his hand falling to the rail and wheels of the tender passed over it.

Bank at Gray Dynamited.

Haddock, Ga., Jan. 16.—The bank at Gray has been dynamited, but the robbers failed to get into the safe. They escaped by stealing a horse and buggy from Judge Richard Johnson, at Clinton. They went to East Macon and left the team at a livery stable. Two hundred dollars reward is offered for the capture of the safe blowers.

Carolina Bars Football.

Columbia, S. C., Jan. 16.—The board of trustees of the South Carolina college, at its meeting here has decided to abolish intercollegiate football. It was stated that the action was taken without any outside influence, being deemed for the best interests of the institution.

CASTORIA For Infants and Children. The Kind You Have Always Bought

Bears the Signature of *Chas. H. Fletcher*

The French Student.

Some of the French students are miserably poor. No one knows how much poverty is hidden under those long curls and pale faces. Sometimes in the libraries in the evening one sees a student take a piece of dry bread out of his pocket and munch it while studying, that being his whole supper. There was one student who always walked with his coat collar turned up. He was found frozen dead one morning. He had hardly anything on underneath his coat. But while American students who find themselves hard up will do manual labor, if nothing better can be found, a French student would rather starve than do so, and as one of them expressed it, "Rather starve during nine years and not do manual labor than live fairly well and finish the same studies in three years and work for a living."—Paris Letter in New York Post.

Houses in Slam.

In Caspar Whitney's book "Jungle Trails and Jungle Peoples" he says: "The Siamese builds his house of one story and on stilts for several reasons. The first, no doubt, is to avoid the unpardonable stink of living in a lower story while an upper one is occupied by other human beings, especially women, who in Siem are not regarded as of much importance. The second, and I should say the most practical, if not the most aesthetic, reason is to have a waste gate easy of access for the continually flowing saliva from betel nut chewing and household refuse, which may thus be easily disposed of through the crevices of the openly constructed floor."

City Directory For Sale.

We have a number of copies of Burtz' City Directory for sale at The Sun office. It is a handy reference book for business and professional men, giving the names of residents, with street and number. Price, \$2.

SURE HER TOOTH WAS OUT.

Force of Imagination as Exemplified in a Dentist's Chair.

Dentists have a splendid opportunity of studying the power of imagination. A New York practitioner by way of illustration told a reporter about one of his women patients. She entered, accompanied by her husband, and, pointing to her swollen face, asked the dentist to extract the offending tooth. He placed her in the chair and, taking the small hand glass which dentists use, put it into her mouth for the purpose of examining the molar which was to be extracted.

The glass had no sooner touched the tooth than she uttered a frightful scream and, bounding out of the chair, rushed into the waiting room, crying that her jaw was broken. The united efforts of her husband and the dentist were for some time unable to persuade her that the tooth was not extracted and that she could not possibly have been hurt. After examining her mouth with the aid of a glass she finally became convinced that the tooth was still in its place. Taking her seat in the chair again, she submitted to the operation of extracting the tooth with out a murmur and expressed her surprise that the pain was so slight.

Never Original.

"Blank is a bright talker, but he shines by reflected light."

"How's that?"
"He never tells any but other men's stories."—Detroit Free Press.

To accept good advice is but to increase one's own ability.—Goethe.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of dandruff and to prevent baldness by feeding the germs which cause it, with Cantharides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

MEXICO'S LOST MINES

ANCIENT BEDS OF TREASURE THAT CANNOT NOW BE LOCATED.

The Romance Which Hovers Around the Famous Hidden Mine of Talapa, Superstition and Cunning of the Native Indians.

Of the many mines which were worked by the Spaniards and which gave them such fabulous returns for their labor scarcely one can be located today. Many romantic stories as to their whereabouts have been followed up, only to be met with defeat.

One of the richest of these mines was probably Tarasoa, about which Humeboldt has written. It was worked long before the Spaniards arrived in Mexico, and the gold and silver were made into ornaments by the aborigines. A family in Guaymas has a necklace of flying fish purchased from a Pima chief, who said that the necklace was dug from Tarasoa. Later the mine was acquired by the crown of Spain and was worked with the exception of a period during the Apache war, till the French intervention, when the shafts were said to have been concealed by the administrator, Don Juan Moreno, who was forced to seek safety in flight. After the restoration of peace the location of Tarasoa was looked for in vain, though the mine now known as Charlock is supposed to be the same. When rediscovered years ago Charlock was found to have been extensively worked and the shafts concealed under earth and brush. Rich pillars of ore were found in the drifts, and the mine corresponds in many respects with the descriptions of Tarasoa found in the archives of the American consulate at Guaymas.

The fame of Tarasoa is eclipsed by the romance which hovers around the lost mine of Talapa. A Mexican of great wealth who was much interested in the subject made a trip to Madrid to search for data on the subject. He found absolutely nothing to prove that such a mine had ever been worked by the crown of Spain, and there is nothing in Mexican archives to establish the facts. Quite as trustworthy as the written documents are the traditions among the Pima Indians. They maintain that Talapa exists and a few claim to know its whereabouts. Small quantities of very rich ore are occasionally sold at the mountain mining camps, but all attempts to follow the Indians to the spot where it is found or to bribe them to reveal it have been unavailing. Their wants are few, and they believe that should they reveal the secret they would drop dead. About six years ago an old Pima chief fell ill in one of the valley pueblos and was cured by a Mexican lady so well known and universally respected that her statement is taken without question. The old Indian returned to his tribe and from time to time sent his benefactress rich bits of ore which assayed thousands of dollars to the ton.

All her efforts to get him to lead her to the mine were fruitless, for the great spirit would strike him dead for the offense. The following summer the senator went to the mountains and lived among the Indians for three months, doctoring the sick and giving presents of ribbons and gay clothes to the women. She became convinced that the spot whence the rich ore came was Talapa. Finally the old chief admitted that the mine was worked when he was a boy and gave permission to two women of the tribe to lead the senator within a few yards of the mine so that she might discover it for herself and save him from the penalty of sudden death for revealing it. The three women traveled mostly at night, passing through deep canyons and over lofty mountains.

The fourth night some hours after dark the Indian women led for into a deep canyon and passed before a large rock. In the dim moonlight an old man was seen and across the canyon a large fire blazed. The women gathered bits of ore from the dump, but was hurried away by the spirits, who said they would be killed if they delayed beyond the time mentioned by their chief. They traveled till the moon went down, rested a few hours and went on before daylight, completely forgetting the Mexican woman as to the route they had taken. They arrived at the pueblos at midnight, having taken four days to reach the mine and but one to return, the obvious conclusion being that she had been led in a circle. Despairing of gaining more, the women returned to her home, but she hopes at some future time to continue the search.

Two other mines which are supposed to have been the property of the crown during the Spanish occupation and of which there are many romantic tales are the Reina Mercedes and the Casa Blanca. Both have been lately rediscovered and are being worked by other names. The Reina Mercedes is supposed to be one of the rich Cherokee mines. Near the latter is an ancient mine, now worked by a Mexican company, which has open cuts on the surface showing a mine and several miles of underground workings. Near this mine is once a large church

stood, which has long since fallen into ruins. Two copper beds have been found. They bear the name of Guadalupe de Talapa, thus leading many to the belief that the Talapa mine is the long lost Tarasoa. New York Herald.

Opening the Staphan Tunnel.

On April 2 the first train ran through the Staphan tunnel. Engineer Brandan, who had directed the work on the tunnel, took the train in from the Italian side and reached the iron door which had been erected to stop a flow of hot water and which still kept the two sections asunder. Presently the train from the Swiss end was heard beyond the door. By means of hammering the two parties communicated with each other, and in a few minutes the door was knocked down and the tunnel was open. Mr. Rosemond, the engineer in charge of the work on the Swiss side, shook hands with Mr. Brandan. Bands played the Swiss anthem and the Italian royal march. The Italian bishop embraced the Swiss bishop, who then preached a short sermon and asked God's blessing on the tunnel and all the human good will and good labor which it represents. This was a dramatic and devout inauguration of a great work in which the whole world is interested. The formal opening of the tunnel will not occur for some months.—Youth's Companion.

An Aid to Matrimony.

James Whitecomb Riley says that the most amusing "character" that ever came within his personal observation was a Squire Roberts of Lapeer, Mich. Although the squire was, according to the letter heads on his stationery, a justice of the peace, he made additional claims to fame that he advertised himself as "the original and only exclusively matrimonial Gretna Green magistrate." Also the busy squire announced on his stationery that his office was in the First National Bank building, "or wherever most convenient to swains," and he made the further assertion that "a fine line of high grade bridesmaids and groomsmen" were "constantly on hand to assist at the services." Mr. Riley adds that the following were also selections from the remarkable letter head circulated by Squire Roberts: "Marriages solemnized promptly, accurately and eloquently. Plain ceremony, legal fee. Elopements a specialty."

How to Avoid Pneumonia.

We have never heard of a single instance of a cold resulting in pneumonia or other lung trouble when Foley's Honey and Tar has been taken. It not only stops the cough, but heals and strengthens the lungs. Ask for Foley's Honey and Tar and refuse any substitute offered. Dr. C. J. Bishop of Agnew, Mich., writes: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." J. W. McCollum & Co.

Shocked the Queen.

The queen of Denmark once paid a visit to the Danish colony of Iceland, where the good old bishop exerted himself to the utmost to show her everything that was worth seeing. The queen paid many compliments to her host, and having learned that he was a family man graciously inquired how many children he had. It happens that the Danish word for "children" is almost identical in sound with the Icelandic word for "sheep," so that the worthy bishop, whose knowledge of Danish was not so complete as it might have been, understood her majesty to ask how many sheep he owned and promptly answered:

"Two hundred."

"Two hundred children?" cried the queen, astonished. "How can you possibly maintain such a number?"

"Easily enough, please your majesty," replied the prelate, with a cheerful smile. "In the summer I turn them out upon the hills to grass, and when winter comes I kill and eat them!"

Spoiled Her Beauty.

Harriet Howard, of W. 34th St., New York, at one time had her beauty spoiled with skin trouble. She writes: "I had salt rheum or eczema for years, but nothing would cure it, until I used Euclyen's Arnica Salve." A quick and sure healer for cuts, burns and sores. 25c at all drug stores.

Through Train and Sleeping Car Service Between Jacksonville, Fla., and Augusta, Ga.

Effective January 10, 1906, the Atlantic Coast Line will inaugurate Pullman sleeping car service between Jacksonville, Fla., and Augusta, Ga. Trains will arrive at Augusta at 8:55 a. m. and arrive at Jacksonville at 8:55 p. m., affording daylight service between the two points. Dining car service will be operated between Jacksonville and Yamacraw for breakfast and lunch.

Evening trains from all South Florida points make direct connection at Jacksonville, affording the quickest and best service between Florida and Augusta. For further information see ticket agent or write Frank C. Boylston, District Passenger Agent, Jacksonville, Fla.

at reasonable rates. Apply at Bar-
racks.Scriven drawers at the 48-hour sale,
only 61c. Get the habit. L. J. Burkheim.W. J. Hodge, the marketman of
Alachua, was among the visitors to
Gainesville yesterday.Misses Jessie Bodiford and Ethel
Haynes are spending a day or two de-
lightfully with relatives at McIntosh.Joseph D. Lanier of Dunnellon was
in the city yesterday on business con-
nected with the United States land
office.The Donnelly & Hatfield Minstrels
give a parade every day. See it and
be convinced of the magnitude of this
organization.Messames Chas. Eddy and Wm. A.
Paulsen of Orange Heights were
among those who favored Gainesville
with a visit yesterday.Dr. and Mrs. J. L. Kelley and son,
Lawrence, have returned from a pleas-
ant visit to the former's daughter,
Mrs. James Holder, of Citronelle.Among the business visitors to this
city yesterday was W. H. Hays of
Tyler, member of the firm of Hays
Bros. He made The Sun an agreeable
call.Lost—Pointer bitch with white and
liver, tan collar, tag marked "L. R.
Woods." Liberal reward for informa-
tion leading to recovery. L. R. Woods,
Gainesville, Fla.The Donnelly & Hatfield Minstrels
travel in their own two private cars,
which were especially built for this or-
ganization by Barney & Smith. They
are palaces on wheels.Mrs. Brookover, who has been here
for the past few weeks, left yesterday
for Micanopy, where she will spend
the remainder of the winter. She is
delighted with this section.For Rent—One ten-room house, 408
East Main street, N., four blocks from
square; in good repair. Also, one
twelve-room house, 905 N. University
street, excellent repair, and good out-
houses. Apply to R. B. Livingston.Judge and Mrs. M. B. Gerry, who
have been pleasantly located on East
Court street for several weeks, have
gone on a visit to Fort Myers. They
expect to return in time for the open-
ing of the Bible Conference, however.Mrs. T. J. McRae left yesterday on a
visit to relatives and friends at Haw-
thorn.Lawson L. Mooty has gone to Tyler,
where he has been employed to do
some electrical work.Turpentine leases for sale at this of-
fice, 50c per dozen, \$3 per hundred.
Cash must accompany order. dawtfJ. E. Fatch left yesterday for Wau-
chula, DeSoto county, in the vicinity
of which place he owns some fine grove
property.The Industrial Edition of The Sun
is on sale at Avera's and Vidal's news-
stands. Get a copy and send it to
your friends.Order Blue Ribbon Lemon or Vanil-
la Extract. Use half the amount re-
quired of other kinds and if not satis-
factory your money back for the ask-
ing.Mr. and Mrs. J. M. Shelton of Lake
City, who have been here for the past
few days as guests of the former's
mother, Mrs. A. H. Leonard, have re-
turned to their home.Harry C. Shunk, comedian with the
Donnelly & Hatfield Minstrels, is the
author of many of the latest ragtime
melodies. He sings his own original
conceptions at every performance.Wanted—Lady or gentleman of fair
education to travel for firm of \$250,000
capital. Salary \$1,072 per year, paya-
ble weekly. Expenses advanced. Ad-
dress George G. Clows, Gainesville,
Fla.Tommy Donnelly, who has been the
leading comedian of the A. G. Field
Greater Minstrels, heads the list with
the Donnelly & Hatfield Minstrels.
He is known from ocean to ocean as
the leading fun-maker in his line of
work.The Brown House is in receipt of a
handsome new counter cabinet, which
adds a great deal to the appearance
of the surroundings. It is an advertising
proposition, but is quite handsome and
useful, and would be an ornament to
any country.One of the prettiest windows in the
city is that of the Morris-Phifer Co.
The display comprises shoes and hats,
neatly arranged on an arch of ever-
greens, and reflects a great deal of
credit on the taste and ability of the
window-dresser.

READ THIS.

DYERSBURG, TENN., June 1, 1901.

Dr. E. W. Hall, St. Louis, Mo.—Dear
Sir: One bottle of your Texas Won-
der, Hall's Great Discovery, has cured
me of kidney trouble and lame back
and I can cheerfully recommend it.
Yours truly,
Jack Moore, Merchant

A TEXAS WONDER.

One small bottle of the Texas Won-
der, Hall's Great Discovery, cures all
kidney and bladder troubles, removes
gravel, cures diabetes, seminal emis-
sions, weak and lame backs, rheuma-
tism and all irregularities of the kid-
neys and bladder in both men and
women, regulates bladder troubles in
children. If not sold by your druggist,
will be sent by mail on receipt of \$1.
One small bottle is two months' treat-
ment and seldom fails to perfect a
cure. Dr. Ernest W. Hall, sole manu-
facturer, P. O. box 629, St. Louis, Mo.
Send for testimonials. Sold by J. W.
McCollum & Co.W. P. Shettleworth and O. D. Hoff
of Evinston were among the visitors to
this city yesterday.Surveyor A. W. Taylor has returned
